A 2by2 Nebraska Lottery ticket purchased at In & Out in Grant yielded \$22,000 in winnings for Chris Wendell of Grant.

She joins more than 1,600 winners in the Sunday, Sept. 26 drawings.

According to the Nebraska Lottery commission, Wendell received a free Quick Pick ticket from a previous 2by2 play at In & Out.

“It was just luck,” she said.

Information released by the Nebraska Lottery indicated that the four-play ticket contained one play with the winning red ball numbers (21,23) and winning white ball numbers (3,6) from the Sept. 26 drawing for a corresponding prize of \$22,000.

Wendell is among the over 200 Nebraska Lottery players who have won the 2by2 top prize to date.

2by2 is run by the Multi-State Lottery Association and was introduced in June 2002.

Players in Kansas, Nebraska and North Dakota have the opportunity to win up to \$22,000 Monday through Sunday by playing 2by2.

The odds of winning the \$22,000 2by2 top prize are one in 105,625.
