

A donation from Adams Bank and Trust helps further support the opening of the new MRI unit at Perkins County Health Services. PCHS Foundation Administrator Jody Snogren (left) accepted a check from Melanie Carman, retail branch manager of the bank on Monday, June 18, after Director of Radiology Adrienne Turner (right) opened the door for a sneak preview of the new Toshiba MRI which sits in the background. Snogren said the check, one of many from the community and area businesses, will help defray the incredible cost of installing the MRI. The hospital is beginning to schedule exams on the new equipment which will start July 18. (Photo by Jan Rahn)
