

A Columbus based company has been selected as a local independent dealer for Lester Buildings, a leading supplier of customized, pre-engineered post-frame buildings that excel in function and aesthetics.

Established in 1947, Lester Buildings has designed and manufactured over 150,000 wood post-frame buildings for the agricultural, equestrian, suburban-hobby and commercial building markets. Based in Lester Prairie, Minn., the company distributes from the Rocky Mountains to the East Coast, which includes a broad radius around Ogallala.
