

Crews work feverishly during the flying snow on Saturday, March 22, at the Perkins County Fairgrounds to collect hazardous waste material. The hazardous material collection project was held from 8-9 a.m. and an abundance of materials were collected despite blustery conditions outside. The event was provided by Red Willow Household Hazardous Waste Program and sponsored by the Nebraska Department of Environmental Quality Waste Reduction and Recycling, Red Willow Western Rural Fire Department HazMat Team, Southwest Nebraska RC&D, the Perkins County Commissioners and the City of Grant.
