

NRCS wants to remind producers of a continuous sign-up for the CSP program.

What is CSP?

The Conservation Stewardship Program offers payments to producers who maintain a high level of conservation on their land and agree to adopt additional stewardship practices, such as improved erosion control, better water quality practices, rangeland improvement or wildlife habitat management.

Is CSP Right for You?

- Are you a good manager of your land livestock?
- Are you interested in adopting innovative conservation practices for your operation?

The Grant NRCS will host three producer meetings in June at the local USDA service center. Please join any of the meetings on this to be held on June 5, 12 and 13 starting at 7:30 a.m. These meetings will last about one hour including a brief presentation followed by a question and answer period.

Coffee and donuts will be served.

Please contact the NRCS office at 352-4776 with any questions.
