

Dear Editor:

Subject: Support letter for Adrian Smith running for reelection in the Third Congressional District.

There are several viable candidates running for office in the Third Congressional District and all bring some desirable attributes to the table that has merit.

Many small businesses in rural America are struggling to produce enough revenue to support their business endeavors. Governmental regulatory oversight increases the cost of doing business and this discourages starting or continuing business. For this reason and several others, I have chosen to support Adrian Smith for congress because he is committed to conservative values that equate to small government with fewer regulations and less governmental spending.

Please join me in supporting Adrian Smith for Congress.

Ted Tietjen
