

Dear Editor:

This is for whoever took our stone K-state rock off our porch. You didn't just take an ex-rival's mascot rock, you took a memory from us. We lived in Manhattan, Kan. when Chuck first started with the telephone company. Both our daughters were born there and one still has a business there. Several family members have gone to school at K-State.

We like the University of Nebraska. Dr. Nedrow, the eye doctor, is affiliated with the university and he's helping get Chuck's sight back!

We've been gone a lot these past couple of months due to Chuck's carotid and open heart surgery. Plus, he had a stroke and has had a lot of rehab in Lincoln. He is now back in Grant for more rehab. All he wanted was to get back home. I haven't been able to tell him about the rock being taken. If you haven't destroyed it please bring it back. It would mean a lot to us.

Bob Brown

Grant
