

The Perkins County Assessor's Office is required by the State of Nebraska to review all properties in the county on a six-year cycle. This year the assessor's office is scheduled to conduct a complete reappraisal of all commercial properties in Perkins County.

To assist the assessor's office in this process, Perkins County has contracted with Stanard Appraisal Services Inc. of Central City, Nebraska.

The first part of the commercial reappraisal will consist of going out and physically reviewing all commercial properties.

The appraisers will measure all buildings, take new photographs and do an external/internal inspection.

Residents of Perkins County can expect to start seeing the appraisers employed by Stanard Appraisal Services Inc. in area towns and around the county as early as Sept. 14.

Anyone with questions in regards to the commercial reappraisal, may call Bonnie Appel or Peggy Burton at the assessor's office at 352-4938.
