Due to severe damage at the Lions Club hamburger stand on the fairgrounds April 1, and the fact that the former Lions shack was 60 years old, members of the club have decided to build a new stand by fair time.

The new stand will be erected in the same location that it was years ago, but this time made of steel rather than wood.

Lions Club Treasurer Ron Cochran said the club is in need of donations to fund the new building that will be similar in design.
