

Schedule changes can be received via text message

As a service to parents, patrons and anyone else interested in receiving student activity changes, Perkins County schools can send text messages to those who indicate an interest in the feature.

Information being sent includes updates to school calendar, changes in date, time or location, game order, site information and cancellations/postponements.

Cell phone numbers do not have to be provided and are kept private by sending a text message to (917) 746-3819 with the message @pcsa. Complete instructions can be found on the school's website: www.pcs.esu16.org/forms/activityreminders.png

Questions regarding the service can be e-mailed to chip_kay@pcs.esu16.org.
